DEATH OF MADAM SANTAG.—Among the telegraph items in this morning's paper will be found the sad tidings of the death of this gifted artist, in the capital of Mexico. She, with many other distinguished persons, fell a victim to the ravages of the cholera.

"Silistria Still Holds Out!"

For several weeks past, each successive steamer arriving from Europe, with later news from the seat of war, has informed the anxious and expectant American public that SILISTRIA still holds out. The fortress thus gallantly defended by the Turks against the repeated and desperate attacks of seventy or eighty thousand Russians, led by PASKIEWITCH himself, is one of considerable strength and military renown. From the very interesting and authentic record of the Russo-Turkish campaigns in 1828-29, by Col. CHESNEY, of the British Army, we have compiled a brief description of Silistria, and of one or two of the previous sieges which it has sustained.

SILISTRIA is situated on the right bank of the Danube, at the commencement of the delta, and in 1828 had 24,000 inhabitants. The town is but imperfectly fortified; it has ten fronts, each with two small bastions, and a very long curtain connecting them; with rather a shallow ditch, counterscarp, and a low and imperfect glacis. Five exterior forts, or redoubts, aid in the defence of the place and command the river. There is high ground within 500 paces of the works on one side, and within 800 on the other. So far as position and the character of the defences are concerned, Silistria at the best is but a second or third-class fortress. It seems always, however, to have been defended with indomitable courage.

In 1828, during the war between Russia and Turkey, Silistria was besieged by General ROTH, with a corps of the Russian army. He commenced operations on the 21st of July, but made little progress up to the 1st of October; both sides suffering considerably, in the interim, from the sallies of the besieged and the assaults of the besiegers. Early in October the Russians were reinforced, but tho' they had 30,000 men before Silistria, they effected nothing, sickness having nearly paralyzed their efforts. As a last resource, the town was fiercely bombarded for 48 hours from gun-boats on the river and batteries on the heights, but the brave garrison never blenched, and the Russians, in despair, abandoned the siege. On this occasion the investment of the place lasted three months; the Turks losing 3000 and the Russians 7000 men.

In 1829, the year following, the siege of Silistria was resumed, with increased forces and better success. The attacking army consisted of 21,000 men and 88 cannon, with a covering army, under command of Gen. DIEBITSCH (the "passer of the Balkan" in the same campaign). The garrison consisted of 10,000 men, 8000 of them Albanians, under the orders of Mohammed Pasha. The Russians, at the first advance, obtained possession of the trenches, batteries, &c., erected the previous year; completing the investment of the place on the 19th of May. Taught by experience, the Russians made regular approaches by parallels, interrupted occasionally by fierce sallies from the garrison. On the 20th of June, the glacis was crowned, and four mines were sprung, blowing in the counterscarp. From the 20th to the 26th, fierce hand to hand conflicts occurred daily in the ditch, and mines sprung under the bastions of the front attacked. Finally, on the 1st of July, there being several practicable breaches, and the ammunition of the garrison nearly expended, the Pasha consented to capitulate. The siege lasted 43 days with open trenches, and cost the besiegers 115 officers and 2566 men in killed and wounded. The loss of the Turks was between 3000 and 4000.

A third siege of Silistria is now in progress. The forces on both sides are largely increased; the Russians having 75,000 men, and the garrison numbering 20,000. It is understood, moreover, that the defences of Silistria have been much strengthened since 1829; and it is evident that the resistance of the Turks is of the most desperate and determined character. They have repelled assault after assault, and already caused the Russians a loss of from 8 to 10,000 men, in killed and wounded. But *no* fortified place can hold out indefinitely against regular approaches by a powerful and skillfully conducted besieging force. And therefore it is only a question of *time* as to when Silistria must surrender, or be taken by storm—unless the allied troops, now pushing for that point, arrive in season to relieve the beleaguered and battered fortress. The *Asia*, due to-day or to-morrow, may possibly bring us the *finale* of Silistria's gallant fight.

ADDRESS OF THE ANTI-NEBRASKA MEMBERS.—We publish this morning the address adopted by those Members of the Senate and House of Representatives who opposed to the uttermost the Nebraska iniquity. It is a plain, brief, and forcible statement of the case and exposes in glaring light, the faithlessness and inconsistency of the Federal Administration, and the gross wrong done to the North.

The Ordinance of Freedom.

Of the five States formed out of the old North-Western territory, from which Slavery was forever excluded by the provisions of the ordinance of 1787, four, viz. Ohio, Michigan, Indiana and Wisconsin, are preparing to celebrate the birth-day of that ordinance, by holding conventions on the 13th day of July to protest against the removal of the ancient landmark of Freedom, by the repeal of the Missouri Compromise. Chapman's Chanticleer—the identical CHAPMAN who "crowed" so lustily in 1840 for VAN BUREN and Democracy—has the following notice of the expected gathering at Indiana:

Great Meeting at the Capital!

We learn that active preparations are being made for a great meeting of the people, at *Indianapolis on the 13th of July*, the anniversary of the ordinance of 1787. Leading men without distinction of party, all over the State, are taking part in this matter. The gathering will be held, we have no doubt, and the crowd will be immense. It is high time for the WEST to speak for itself; and Indiana ought to lead off in this great matter, or forever hereafter remain tongue-tied!

☞ The President left Washington on Friday last for Old Point Comfort, Virginia, to pass a few days at that pleasant watering place.

☞ The *Sentinel* quotes, on its own editorial authority a paragraph round valuing Irishmen, and says it is from the N. Y. *National Democrat*, a Nebraska organ. The paragraph in the third column of that paper for yesterday. In the next column it quotes the same identical paragraph from a rabid, red-mouthed anti-Nebraska paper in the same city.

* * * *

The truth is, this outrageous sentiment is from the New York "*True*" *National Democrat*, a soil, anti-Nebraska paper.—*Madison Democrat*.

We copy the above paragraph, simply to brand one or two of its grosser fabrications. The *Sentinel* stated and stated truly that the obnoxious article which it quoted was from "the organ of the Pierce and Nebraska party in New York city." And the paper from which we quoted this "identical paragraph" was the Buffalo *Courier*, one of the staunchest advocates of the Nebraska bill in the Empire State. We think our friend of the *Courier* will be amazed to find himself set down by the Madison *Democrat* as "a rabid, red-mouthed anti-Nebraska paper!"

THE WATERTOWN POST OFFICE.—The *Wisconsin* stoutly maintains that the removal of Mr. WILLIAMS as P. M. at Watertown was all right, and cites the *Sentinel* as declaring that "it was a great outrage upon the democracy of Watertown." The *Sentinel* has declared nothing of the sort. We contented ourselves with putting on record what the "Democracy" said for themselves. The *Wisconsin* further protests that the only parties dissatisfied with the change are "the Whigs and such Democrats as usually vote with them." If all the Democrats in Watertown, who are dissatisfied with the removal of Mr. Williams, vote with the Whigs next fall, we think that the *Wisconsin*'s party, "Barstow and the Balance," will look slim enough.

SUDDEN DEATH.—The Madison *Journal* of Saturday last announces the death at St. Louis, supposed from Cholera, of RANDOLPH D. SANDERS, a young lawyer of much promise, recently located at our State Capital. He was in his 26th year, and left Madison only a week since, in perfect health, to make a tour with his father, to the Lead Mines and the Mississippi. Mr. SANDERS was born in Cortland Co., N. Y., and a graduate of Union College.

MEN ASHA VILLAGE ELECTION.—The Village election in Menasha, on the 13th instant, resulted in the choice of the following officers:

President—CURTIS REED.
Treasurer—JARED L. BISHOP.
Marshal—GEORGE BLINN.
Trustees—S. S. BOBT, E. FREEMAN, I. HOUGH, N. CLINTON, H. A. BURTS, and R. HAMPSON.

The *Advocate* says that the result of the election is an emphatic declaration on the part of the citizens "in favor of a vigorous prosecution of the projected railroad to Manitowoc."

FOURTH OF JULY AT PALMYRA.—The "friends of Freedom" have a grand rally at Palmyra, on the 4th of July; they are to have a procession, oration, music, and dinner in a fine grove. Mr. A. J. CRAIG, Principal of the Fourth Ward school in our city, is to be the orator of the day. A cordial invitation is extended to all comers, to participate in the festivities.

NEW HAMPSHIRE LEGISLATURE.—The Senate on Friday, 23d instant, rescinded its share of the joint resolutions assigning the 1st of July for the final adjournment and the House will follow the same course. The Session will probably extend to the middle of July.

Dr. Thompson of Lisbon, a Democratic member of the Legislature, died on the 22nd.

THE LOCUST BORER.—The Toledo *Republican* says that the borer has attacked the locust trees in that city, and gives up the battle with the insect at once. It says:

We have enough finer trees here not to regret very deeply the loss of this, and when the borer once attacks it, all efforts to prevent its destruction are totally useless, so far as experiments have yet been made. The thorough white-washing of the trunks which is being tried in some instances, may possibly answer the purpose if done before any attack is made, but after the borer is once in the tree he is beyond the reach of all such applications.

Courage neighbor! Cut every tree off from 15 to 20 feet above the ground, or a short distance above where the main trunk branches. Cut away every branch, and do it at once, and your trees are saved. By midsummer of next year, you will have as much shade, almost, as you have now. We have seen this remedy tried, and prove effectual. Go on planting forest trees among the locusts, if you can.

OUR CONSUL AT TURK'S ISLAND.—The Consul of the U. S. at Turk's Island still remains in confinement, refusing to pay the fine imposed by the Authorities there—altho' his friends advise him to pay it under protest.

MILWAUKEE AND HORICON RAIL ROAD.—The Ripon *Herald*, in reply to several queries as to the progress of this road, says:

Ground is to be broken at Horicon between this time and the first of July next. Mr. LOY, one of the contractors, is here and along the line of the route. He has received his orders to commence his work immediately, and finish the first fifteen miles to Waupun this season, and to drive on to Ripon, and thence to Berlin, in succession, with all speed possible. Mr. LOY tells us that the work will commence before the first of July; he is now engaged in perfecting the arrangements for vigorous work and as we are informed, for the purpose of accomplishing with greater speed, is sub-letting portions of the job to be acted upon at once.

CROPS IN NORTHERN WISCONSIN.—The Ripon *Herald* of last week, says:

Crops of all kinds bid fair hereabouts, to be equal, if not to surpass those of any previous year. —The Wheat crop, particularly, makes promise of a handsome time.

OUR GERMAN FELLOW CITIZENS.—The Madison *Journal* addresses the following timely hint to the German citizens and German press of this State:

The Germans have a vast influence over politicians in this State. They can use it for good or evil as they see fit. The attendance of a goodly number of Germans upon the July convention would be of great service to the cause of Freedom; and the German Press, favorable to that movement, could not do better than earnestly to urge their readers, who can leave home, to attend it.

"Zum Werke, das wir ernst beraten,
Gerüstet sich wohl ein ernstes Wort!"

WELL SAID.—The *Burr Oak*, published in Dodge County and edited by one of the PIERCE Electors for this State, takes manly ground against the Nebraska Iniquity. In a recent article, replying to the strictures of some Doughface correspondent, the *Burr Oak* talks in this plain fashion:

We have no patience to talk about this new fangled doctrine of *non-intervention*. For an American Congress in this age of the world, to say by legal enactment that it is *Republican* and *right* to allow one part of mankind to enslave another part, if they will vote to do so, is unnatural, unchristian, immoral and barbarous.—Within the states, slavery exists by local laws and Congress cannot constitutionally interfere with it there. But it is the solemn duty of Congress to prevent its spread into Territories. Its duty because it is the representative of a christian people and a Republican government. Slavery is neither christian nor republican.

We do not advocate needless agitation. Slavery cannot spread in the Union but by the aid of northern votes in Congress. So far as it is necessary to *agitate*, to prevent that spread, we would agitate.

DUELS IN CALIFORNIA.—The *Star of the West* reports two fatal duels in California—George T. Hunt killed by R. Hubert, a Member of the Assembly, and Thomas C. Benson killed by a man named Menzie.

THE FOURTH AT KENOSHA.—They are to have a double celebration of the Fourth, at Kenosha; one by those who intend to celebrate in the old way; and the other by those who think that in view of the passage of the Nebraska Iniquity, the day should be one "of mourning, instead of rejoicing—of humiliation, instead of exaltation—of firm and high resolve as to the future, rather than a worse than meaningless glorification of the past."

CONGRESSIONAL CONVENTION.—A Democratic Convention for the Second District is called at Mineral Point on the 6th day of September next This is Mr. Eastman's District. We have not yet heard whether he is a candidate for re-nomination.

PROCEEDINGS
Of the Members of Congress opposed to
The Nebraska Bill.

WASHINGTON, Wednesday, June 21, '54.

At a meeting of the Members of Congress who opposed the passage of the bill to organize the Territories of Nebraska and Kansas, held pursuant to previous notice, in the City of Washington on the 20th day of June, instant, the Hon. SOLOMON FOOT of Vermont was elected Chairman, and the Hon. DANIEL MACE of Indiana, and the Hon. REUBEN E. FENTON of New York were appointed Secretaries.

A Committee appointed for the purpose reported an Address to the People of the United States, which having been discussed and amended, was unanimously adopted, and ordered to be published.

TO THE PEOPLE OF THE UNITED STATES.

The eighth section of the Act for the Admission of Missouri into the Union, known as the Missouri Compromise Law, by which the introduction of Slavery into the regions now known as Kansas and Nebraska was forever prohibited, has been repealed. That law, which, in 1820, quieted a controversy which menaced the Union, and upon which you have so long reposed, is obliterated from the statute book. We had no reason to expect any such proposition when we assembled here six months ago, nor did you expect it. No State, no citizen of any State, had demanded the repeal.

It seems a duty we owe to the country to state the grounds upon which we have steadfastly, though inefficiently, opposed this alarming and dangerous act.

You need not be told that the Slavery question lies at the bottom of it. As it was the slaveholding power that demanded the enactment of the Missouri Compromise, so it is the same power that has now demanded its abrogation.

African Slavery was regarded and denounced as a great evil by the American Colonies, even before the Revolution; and those Colonies, which are now slaveholding States, were equally earnest in such remonstrances with those which are now free States. Colonial Laws, framed to prevent the increase of Slavery, were vetoed by the King of Great Britain. This exercise of arbitrary power to enlarge and perpetuate a system universally regarded as equally wrongful in itself and injurious to the Colonies, was one of the causes of the Revolution. When the war was ended there was an imperious necessity for the institution by some government in the then unoccupied Territories of the United States. In 1784, Jefferson proposed, and in 1787 the Continental Congress adopted, the ordinance for the government of the territory lying north-west of the Ohio, by which it was declared that there shall be neither Slavery nor involuntary servitude except for the punishment of crime. The great and flourishing States since organized within that territory, on the basis of that ordinance, are enduring monuments of the wisdom of the statesmen of the Revolution.

The foreign slave trade was regarded as the source of American Slavery, which it was believed would be dried up, when that fountain should be closed. In adopting the Constitution, it was as universally anticipated that the foreign slave trade would be promptly prohibited, that all parties acquiesced in a stipulation postponing that measure till 1808. The foreign slave trade was prohibited—thus the source of Slavery was understood to be dried up, while the introduction of Slavery into the Territories was prohibited. The slavery question, so far as it was a national one, was understood to be finally settled, and at the same time the States had already taken up and were carrying forward a system of gradual emancipation. In 1803 Louisiana was acquired by purchase from France, and included what is now known as the States of Louisiana, Missouri, Arkansas and Iowa, and the territories known as Kansas and Nebraska. Slavery existed at the time in New Orleans and at St. Louis, and in this purchase originated in bringing the Slavery question again before Congress. In 1812 the region immediately surrounding New Orleans applied for admission into the Union under the name of the State of Louisiana, with a constitution tolerating Slavery, and the free States acquiesced. Eight years afterward the region connected with St. Louis demanded admission under the name of the State of Missouri, with a constitution tolerating Slavery. The free States reverted to the principle of 1787, and opposed the admission of Missouri unless she would incorporate into her constitution an inhibition of the further introduction of Slavery into the State. The slaveholding States insisted upon her unqualified admission. A controversy arose which was sectional and embittered, and which we are assured by contemporaneous history seriously imperiled the Union. The statesmen of that day in Congress settled the controversy by compromise. By the terms of this compromise the free States assented to the admission of Missouri with her slaveholding Constitution, while the slaveholding States on their part yielded the exclusion of Slavery in all the residue of the territory which lay north of 36 deg. 30 min., constituting the present territory of Kansas and Nebraska. The slaveholding States accepted the Compromise as a triumph, and the Free States have ever since left it undisturbed and unquestioned. Arkansas, a part of the territory of Louisiana, which lay south of 36 deg. 30 min., in compliance with an implication which was contained in this Compromise, was afterward admitted as a slaveholding State, and the free States acquiesced. In 1819 Florida, a slaveholding Province of Spain, was acquired. This Province was afterward admitted as a slaveholding State. The free States again acquiesced. In 1845 Texas, an independent slaveholding State, was annexed, with a provision in the article of annexation for the subdivision of her territory into five States. The free States, although they regarded the annexation, with the probable increase of the number of slave States, with very great disfavor, nevertheless acquiesced again. New territories were acquired by the treaty of peace which closed the war with Mexico. The people of California formed a constitution inhibiting Slavery, and applied for admission into the Union. Violent opposition was made by the slave States in and out of Congress, threatening the dissolution of the Union if California should be admitted. Proceeding on the ground of these alarms, Congress adopted another compromise, the terms of which were, that ten million dollars of the people's money should be given to Texas to induce her to relinquish a very doubtful claim upon an inconsiderable part of New Mexico, that New Mexico and Utah should be organized without an inhibition of Slavery, and that they should be afterward admitted as slave or free States, as the people, when forming constitutions, should determine; that the public slave trade in the District of Columbia should be abolished, without affecting the existence of Slavery in the District; and that new and rigorous provisions for the recapture of fugitive slaves of disputed constitutionality should be adopted, and that on these conditions California should be admitted as a free State. Repugnant as this compromise was to the people of the free States, acquiescence was inexorbitantly practically obtained by means of solemn assurances, made on behalf of the slaveholding States, that the Compromise was and should be forever regarded as a final adjustment of the Slavery question, and of all the issues which could possibly arise out of it. A new Congress convened in December, 1851. Representatives from the above States demanded a renewed pledge of fidelity to this adjustment. It was granted by the House of Representatives on the following terms:

Resolved, That we recognize the binding efficacy of the compromises of the Constitution, and believe it to be the intention of the people generally, as we firmly believe it to be ours individually, to abide by such compromises and sustain the laws necessary to carry them out, the provisions for the delivery of fugitive slaves, and the acts of the last Congress for that purpose included, and that we deprecate all further agitation of questions embraced in the acts of the last Congress known as the Compromise, and of questions generally connected with the institution of Slavery as unnecessary, useless and dangerous.

A few months subsequently the Democratic National Convention met at Baltimore, and, assuming to speak the sentiments of the Democratic party, set forth in its platform: That the Democratic party will resist all attempts at renewing in Congress or out of it, the agitation of the Slavery quest on under whatever shape or color the attempt may be made. Soon afterward another National Convention assembled in the same city, and assuming the right to declare the sentiments of the Whig party said: We deprecate all further agitation of the questions thus settled as dangerous to our peace and will discountenance all efforts to continue or renew such agitation, whenever, wherever, or however made. The present Administration, was elected on the principle of adherence to this compromise, and the President referring to it in his inaugural speech, declared that the harmony which had been secured by it should not be disturbed during his term of office. The President recurring to the same subject renewed his pledge in his message to Congress at the beginning of the present Session, in the following language:

"But notwithstanding differences of opinion and sentiments which then existed in relation to details and specific provisions, the acquiescence of distinguished citizens whose devotion to the Union can never be doubted, has given renewed vigor to our institutions, and restored a sense of repose and security to the public mind throughout the Confederacy. That this repose is to suffer no shock during my official term, if I have the power to avert it, those who placed me here may be assured."

Under these circumstances the proposition to repeal the Missouri Compromise was suddenly and unexpectedly made by the same Committee on Territories, which only ten days before had affirmed the sanctity of the Missouri Compromise, and declared the end of agitation in the following explicit and unmistakable language,

"Your Committee do not feel themselves called upon to enter into a discussion of those controverted questions. They involve the same grave issues which produced the agitation, the sectional strife, and the fearful struggle of 1850.—As Congress deemed it wise and prudent to refrain from deciding the matters in controversy *then*, either by affirming or repealing the Mexican laws, or by an act declaratory of the true intent of the Constitution, and the extent of the protection afforded by it to slave property in the Territories, so your Committee are not prepared *now* to recommend a departure from the course pursued upon *that memorable occasion*, either by *affirming* or *repealing* the eighth section of the Missouri act, or by any act declaratory of the meaning of the Constitution in respect to the legal points in dispute."

The abrogation has been effected in pursuance of the demands of the administration itself and by means of its influence in Congress. In the House of Representatives, that body which is more immediately responsible to the people, the contest was more equal than in the Senate, though it is due to justice and candor that it should be stated that it could not have been carried in either house without the votes of the representatives from the free States. The minority resisted the attempts to arrest discussion upon this grave question, through a struggle of longer duration than any other known to Congressional history. Some attempt was made to stigmatize that minority as "factionists," yet we fearlessly declare that throughout the contest they resorted solely to the powers secured to them by the law and the rules of the House, and the passage of the measure through the House, was effected through a subversion of its rules by the majority, and the exercise of a power unprecedented in the annals of Congressional legislation. The deed is done. It is done with a clear proclamation by the Administration and by Congress that the principle which it contains extends not only to Kansas and Nebraska, but to all the other Territories now belonging to the United States and to all which may hereafter be acquired. It has been done unnecessarily and wantonly, because there was no pressure for the organization of Governments in Kansas and Nebraska, neither of which Territories contained one lawful inhabitant who was a citizen of the United States, and because there was not only no danger of dissension apprehended, but by this reckless measure the free States have lost all the opportunities for freedom in the Territory contained in former compromises, while all the States, both slave and free, have lost the guarantees of harmony and union which those compromises afforded. It seems plain to us that, fatal as the measure is in these respects, it is only a cover for broader propagandism of Slavery in the future. The object of the Administration, and of the many who represent the slave States, is, as we believe, to prepare the way for annexing Cuba at whatever cost, and a like annexation of half a dozen of the States of Mexico to be admitted as slave States. These acquisitions are to be made peaceably if they can be purchased at the cost of hundreds of millions. If they cannot be made peaceably, then at the cost of a war with Mexico, and a war with Spain, and a war with England, and a war with France, and at the cost of an alliance with Russia scarcely less repugnant. Unmistakeable indications also, appear of a purpose to annex the eastern part of San Domingo, and so to subjugate the whole island, restoring it to the dominion of Slavery—and this is to be followed up by an alliance with Brazil and the extension of Slavery in the valley of the Amazon. It is for you to judge whether, when Slavery shall have made these additions to the United States, it will demand unconditional submission on the part of the free States, and failing in that demand attempt a withdrawal of the slave States and the organization of a separate empire in the central region of the continent. From an act so unjust and wrongful in itself and fraught with consequences so fearful we appeal to the people. We appeal in no sectional spirit. We appeal equally to the North and to the South, to the free States and to the slaveholding States themselves. It is no time for exaggeration or for passion, and we therefore speak calmly of the past, and warn you in sober seriousness of the future. It would not become us, nor is it necessary, to suggest the measures which ought to be adopted in this great emergency. For ourselves, we are ready to do all that shall be in our power to restore the Missouri Compromise, and to execute such further measures as you in your wisdom shall command, and as may be necessary for the recovery of the ground lost to Freedom, and to prevent the further aggressions of Slavery.

The meeting was fully attended, and the Address is indorsed by all the Anti-Nebraska members of Congress.

A Greeting from Lake Winnebago.

A paragraph elsewhere announces the arrival here of the *Montello*, a neat little river steamer, from the city of Oshkosh, on Lake Winnebago, Wisconsin. We learn from her officers, that she steamed her way from that lake to within five miles of Portage City, located on the canal joining the Fox and Wisconsin rivers, without trouble or delay. From that point, till she reached the channel of the Wisconsin, the miserable condition of the locks and canal, made the passage a work of some difficulty. She came down the Wisconsin without hindrance, and has arrived here in good condition. The improvements on the upper Fox and lower Wisconsin, have been barely commenced, and the passage of a good sized boat through them in their present condition is a fact worthy particular notice. An energetic company has control of the whole line, and it will not be many years before we shall see this route becoming a great highway of trade between the Atlantic cities and the upper Mississippi valley.—Within five years we shall be able to take passage on elegant river steam packets, running regularly from St. Paul to Green Bay; and heavy goods will come by this route, with only two transhipments between New York city and Minnesota. May Providence and the Wisconsin Improvement Company hasten this consummation.—*Minnesota Pioneer*.

JUDGE SMITH'S DECISION.—The late decision of Judge SMITH, of the Supreme Court, in which he declares the Fugitive Slave Law to be unconstitutional and void, is attracting a great deal of attention, and receiving the approbation and condemnation of the press throughout the country.—The Milwaukee *News*, true to its instinct, and not understanding how it is possible for any one to entertain an honest opinion upon any subject, characterizes this decision as a "bid for the Senatorship." For one, though we may not entirely agree with the Judge upon the subject, we should consider it a proud day for our young State when *he or such* as he, are selected to represent her in the councils of the nation. From an intimate acquaintance with the man, we are certain that he has taken this step from no dishonest motive; and, as we believe him to be one of the most talented men in the Union, we have every confidence that the ground he has assumed will be backed up with reason. As the case has been appealed to the Supreme Court, we choose to await their decision, rather than passing an opinion upon the merits of Judge SMITH's position on this subject. Would it not be a wise plan for others to do likewise?—*Menasha Advocate* (dem).

KANSAS.

Several professional gentlemen have signified their intention of joining the Kansas party, to leave here on the 17th of July, and to return in four weeks. Thus they will see the finest part of this country, besides going along the borders of Nebraska and Kansas.

The trustees of the society advertise for proposals to convey 20,000 persons this year, and if necessary 50,000, (not 150,000.) The smallest number is no more than the average yearly immigration from the East into Wisconsin. But no encouragement will be given to more than can be comfortably "located" before winter, and many after "locating" their farm and erecting their log hut, will return to spend the winter with their families. It is not probable that more than one quarter of the fund subscribed will ever be wanted; five dollars on a share will give $50,000; which is twice as much as is necessary at present. The large number of subscribers will render it inconvenient to collect assessments.—*Boston Atlas*.

The Manitowoc *Democrat*, an ably conducted and influential democratic paper, published in the German language, publishes the call for the mass convention of the friends of freedom of all parties to be held here on the 13th of July.

It notices the so-called "pairing-off" of Dodge and Macy on the final vote on the Nebraska bill, and declares that such "conduct is as cowardly as it is dishonest."—*Madison Jour.*

EMIGRATION TO THE PINERY.—We are informed by the Hon. W. D. McINDOE that the amount of immigration into Portage and Marathon counties greatly exceeds that of any proceeding year. Many farmers in the southern portion of the State who have sold their farms to new-comers from the East are removing there. The Pine lands of course are not adapted to farming; being sandy and barren. There are fine rich bottoms however along the rivers and small streams, and fertile uplands covered with a heavy growth of maples, elms, beeches, and other trees usually found in the timbered lands of Ohio and New York.—*Madison Journal*.

A GOOD CLIP.—Mr. Daniel Jenkinson, of the town of Metomen brought to town this week the fleeces of 88 sheep, being his clip of this year, the weight of which was 386 lbs—being over 4 oz per head. We think this is doing well for a flock, as he says, of ordinary sheep, no *awful* blood amongst them.—*Ripon Herald*.

SALE OF REAL ESTATE.—Richardson & Co., sold yesterday a fine tract of 156 acres of land, bordering upon the east shore of Third Lake, directly opposite from Madison, at $40 per acre. The purchasers were New York farmers, who intend to commence improvements the present season.—*Madison Journal*.

A COX.—Why are the nights in California likely to be very dark? Ans. *Because* there have so many "stars" gone out there.

City Matters.

POLICE COURT, JUNE 27th.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

A man named Daniel Dudy was brought down from jail by officer Meyer, charged with assault and battery upon Jeremiah Healy, on the 26th. The defendant's face was most shockingly disfigured. The circumstances of the case were, that the defendant, who was in the employ of Mr. Healey, had got drunk and attacked Healey with stones, clubs, &c., &c., at several times, and that Healey, in self-defense, had to inflict the punishment the defendant had received. Healey states that the defendant, when he leaves whiskey alone, is an excellent man to work, and that he had frequently cautioned him against its use. The matter was settled without a trial, the witnesses refusing any pay for their attendance.

DEPUTY MARSHAL.—The city Marshal has appointed John Ryan of the third ward, a deputy Marshal. Little Jack thus holds two offices constable and deputy Marshal.

SUDDEN DEATH.—JOHN KEIG, a steady, industrious Englishman, residing on Fifth Street, in the Second Ward, and for some years past foreman in SMITH & MCVICKAR'S Steam Plaing mill, was found dead, about 3 o'clock yesterday morning, in an open lot not far from his residence.—It appears that he had left his house about 9 o'clock the evening previous, complaining of not feeling very well, to get a little brandy for medicinal uses. Not returning for several hours, his wife started out in search of him and found his dead body as described. It is supposed by the physician who attended him that he was seized by a fit, before he had got far from the house, and died in a few minutes. The appearances of the head, face, &c. indicated an apoplectic attack, probably superinduced by the extreme heat of the weather and hard work on Monday.

☞ The tender for the new Locomotive "Westward Ho!" was in the street last night opposite the Commercial Hotel. Mr. Carvell, the landlord, claims that the Commercial, is the only *Hotel* at which the cars arrive and depart. The tender is being drawn to the La Crosse R. R. Depot, and we expect some fun (for the aldermen) when it crosses the gully in front of this office.

MORE RAIL ROAD IRON.—The Brig *Robert Burns*, which arrived from Buffalo Monday evening, brought up 325 bars of of iron for the M. & M. R. R. Company and 385 for the Milwaukee & Watertown.

Military Meeting.

A meeting of the Members of the different Military Companies was held in this city, on Monday evening, at which the following resolutions were adopted;

Resolved, That it is expedient to have a State Military Convention, for the purpose of procuring a reform in the militia laws thereof, through our next Legislature.

Resolved, That such Convention be held on the second day of the next Annual State Fair at the city of Milwaukee.

Resolved, That the captains of the several companies in Milwaukee, be a committee to invite a representation from other companies throughout the State to said Convention.

The following officers were appointed a committee to correspond with the different military companies of the State, and request each company to send delegates and to request all the Field and Commissioned officers of the State to attend said Convention:

Capt. Starkweather,	.....	National Guards.
Capt. Kelly,	.....	City Guards.
Capt. Jennings,	.....	Carroll Corps.
Capt. Miller,	.....	Rifles.
Capt. Nunnemacher,	.....	Dragoons.

The expediency of having a Military Encampment and Review at the time of holding the State Fair, was also discussed, and the above committee were authorized to call future meetings with reference to the above subjects.

Dogs! Dogs!

The city Marshal still keeps up the exterminating war upon dogs; and is determined to rid the city of all, not muzzled, which are running at large. He requests us to state that he has not authorized any person to administer poison to dogs, that he does it *himself*, and watches to see that the dog eats it; if he does not take the bait, he picks it up, puts it in a tin box, but never leaves it on the sidewalk or elsewhere.

FOR GREEN BAY.—The steamer *Columbia* will leave to-morrow evening for Green Bay. The *Columbia* has excellent accommodations for passengers. For passage, &c., apply to Hard & Griffin opposite the Milwaukee House.

FOUND.—The little boy, a son of Major BLOODGOOD, who was noticed as missing in our paper yesterday morning, was found about 10 o'clock the same evening, in the fifth ward, on the outskirts of the city.

FOR BUFFALO.—The propeller *Alleghany* will leave this forenoon for Buffalo, calling at all the intermediate ports. For passage apply to Hard & Griffin, corner of Main and Huron streets.

HOT WEATHER.—Yesterday was another scorcher. The heat of the sun's rays was overpowering, and though there was a fresh breeze blowing all day, from the South-West, it was difficult to find a cool corner anywhere. In such extreme hot weather caution in diet should be observed and unnecessary exposure or over-exertion avoided.

☞ The *Wisconsin* has not yet corrected its mistake, or mis-statement, in regard to both the parties to the Congressional *fracas*, a few days since, being whigs. How long does intend to stick to this——?

THE CAMPBELLS.—These Minstrels had another fine house last evening, and sang, played and danced to the entire satisfaction of the audience. They offer another rich and varied programme to-night.

COUNTY JUDGE.—N. B. EDDY, Esq., County Judge, has resigned. We understand that Governor BARSTOW has appointed Julius P. ATWOOD, Esq., of this place as his successor. Mr. A., is a gentleman of fine legal acquirements, and natural ability; and is deservedly popular with men of all parties who are acquainted with him.—*Madison Journal.*

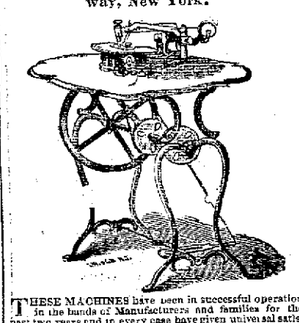
MANUFACTURING COMPANY'S

IMPROVED SEWING MACHINES.

MANUFACTURED AT WATERTOWN, CONN.

Office and Warerooms, at 343 Broadway, New York.



These Machines have been in successful operation in the hands of Manufacturers and families for the past two years and in every case have given universal satisfaction. The Proprietors are now prepared to offer them to the public, with that increased confidence in their merits which the unsolicited testimony of their numerous customers has strengthened and confirmed.

These Machines are entirely different from any other, the principles on which they are made being exclusively our own.

Among the advantages of this Machine over any others are the following :—

1. The simplicity of its construction, and the ease with which it can be kept in the most perfect order.

2. The perfect manner with which the operator is enabled to stitch and sew the various kinds of work, from the finest linen to the coarsest cloths.

3. It particularly excels in the rapidity with which work can be executed; in that respect it has no equal.

4. The little power required to propel them, enabling even those of the most delicate constitution to use them without injury to their health.

We are now manufacturing a larger sized Machine, more particularly adapted to the sewing of leather, canvas bags, and the heavier kinds of cloth.

An examination of our Machines is respectfully solicited at our Office, 343 Broadway. je27 1moMcD

Determined that the virtues of the Schnapps should be thoroughly substantiated by the most undeniable and unquestionable testimonials, circulars were dispatched to every regular member of the medical faculty, and professional chemist whose name could be obtained, soliciting their acceptance of a bottle of the Schnapps, with a view of obtaining them to test its medicinal qualities in their practice, and submit it to the strictest chemical analysis in their laboratories.

Of the ten thousand physicians and chemists in the United States about four thousand accepted the offer. Upwards of two thousand have promptly furnished their written endorsements that the article is all that is claimed for it, and in the strongest language recommended its general use, not only as a remedial agent, but a delightful, harmless, and pleasant beverage. MANUFACTURING COMPANY'S

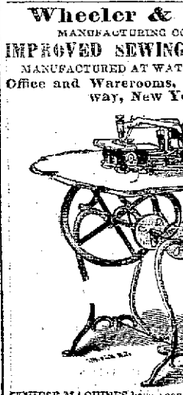
IMPROVED SEWING MACHINES,

MANUFACTURED AT WATERTOWN, CONN.

Office and Warerooms, at 343 Broadway, New York.



THESE MACHINES have been in successful operation in the hands of Manufacturers and families for the past two years, and in every case have given universal satisfaction. The Proprietors are now prepared to offer them to the public, with that increased confidence in their merits which the united testimony of their numerous customers has strengthened and confirmed.

Those Machines are entirely different from any other, the principles on which they are made being exclusively our own.

Among the advantages of this Machine over any others are the following:—

1. The simplicity of its construction, and the ease with which it can be kept in the most perfect order.

2. The perfect manner with which the operator is enabled to stitch and sew the various kinds of work, from the finest linens to the coarsest of Negro cloth.

3. It particularly excels in the rapidity with which work can be executed; in that respect it has no equal.

4. The little power required to propel them, enabling even those of the most delicate constitution to use them without injury to their health.

We are now manufacturing a larger sized Machine, more particularly designed to the sewing of leather, canvas bags, and the heavier kinds of cloth.

An examination of our Machines is respectfully solicited at our Office, 343 Broadway. je27-1moMeD

BROTHER JONATHAN COOK STOVE,

I have sold the B. J. for the past three years. It has been thoroughly tested by thousands who will testify that it is the most complete Cook Stove that can be. I have four sizes of B. J. There is a summer attachment to the stove which will make half difference less of the amount of fuel used in the Summer season and does away with all unnecessary heat which other stoves make that have not the attachment. The oven is much larger than any other stove of the same size furniture. I warrant the stove to give complete satisfaction, if not, to be returned and money refunded. I will refer you to hundreds of the citizens of Milwaukee that are using the Stove.

Fire-Ring Safe again Triumphant.

$1,000 will be paid, if reliable evidence is shown where they ever failed to protect valuables from Fire, where as other makers' Safes have proved worthless in various accidental and experimental tests, some of which occurred recently.

Read the following from Messrs. A. McClure & Co., wholesale and extensive dealers in Drugs, Medicines, &c.

ALBANY, July 27, 1852.

This is to certify, that on the 23d day of January, 1852, our entire Stock, composed of Turpentine, Alcohol, Oil, Patent Medicines, &c., was consumed by fire; so rapid and severe was the fire that we were unable to close one safe until Dr. Robinson subsequently entered at the peril of his life and closed the doors.

After forcing the safe open after all this exposure and fire, which made us so careful for the safety of its contents, its valuables were found uninjured.

We have so much confidence in the security of the Fire King, that we shall have it immediately replaced.

A. McCLURE & CO.

ALBANY, Dec. 19, 1852.

This is to certify, that on the 5th day of May, 1851, I purchased of J. Meib. Davidson, No. 7, single flange Safe, and that the same was consumed in the fire of December, 1851. After the fire was extinguished, its contents (books and papers,) were examined, and found to be perfectly preserved—not a leaf of my books being scorched.

P. J. CLAASSEN,

After an examination of P. J. Claasson's Safe and papers, we are convinced of the superiority of Davidson's Safes over all others.

NOTICE.

On Wednesday, Oct. 14th, I shall have the Pedigree and Terms for the season of the Comet Morgan Horse (lately brought from Vermont by me) printed and bound, ready for those wishing the use of him the first season, to enter their names. Season to commence the second day of April, and end the 31st day of July. Again—It will be found a powerful auxiliary in removing what is generally known as Ague Cake, or an enlargement of the spleen; indeed, in all cases where an effectual application is of service, this Liniment will be found useful. Again—Ringworm, Tetter, Neuralgia, swelled and stiff Joints, Contracted cords, Bruises, Sprains, Galls, Wounds, Cuts, &c., have all been cured in an incredibly short space of time, by the use of the ORIENTAL SANATIVE LINIMENT. It also cures Scrotula, King's Evil, Foul Ulcers, and lamphicable where or an external remedy is required to reach the affected part. And for horses and cattle, for Windgalls, Ringbones, Sweeny, Spavins, Poll Evil, Fistulas, Sprains, Galls, Bruises, Cuts, &c., the proprietor is satisfied that no remedy was ever offered to the world equal to it.

JOHN FRINK & CO.
St. Louis, March 28, 1854.

This is to certify that we have, for some months past, used Prof. Wood's "Oriental Sanative Liniment," both upon our own men and horses, and we have no hesitation in saying, that, among the many liniments that we have used, or the popular liniments of the day, this is decidedly the best we have ever used, and all who use it will more than realize their most sanguine expectations of its wonderful effects.

We have had one of Kidder's Patent Gas Regulators in use for over two months, and as the best evidence of our complete satisfaction, we give below an abstract of our Gas Bills for the past three months.

January, no Regulator..... $132 40
February, with Regulator..... 77 10
March, with Regulator..... 65 90

All the above difference should not be attributed to the use of the Regulator, but we are confident that *it has diminished our Gas Bills from twenty-five to thirty-three per cent*, and at the same time afforded us a clear and steady light as a uniform pressure, independent of the number of burners in use. COOK STOVE,

I have sold the B. J. for the past three years. It has been thoroughly tested by thousands who will testify that it is the most complete Cook Stove that can be. I have four sizes of B. J. There is a summer attachment to the stove which will make half difference less of the amount of fuel used in the Summer season and does away with all unnecessary heat which other stoves make that have not that attachment. The oven is much larger than any other stove of the same size furniture. I warrant the stove to give complete satisfaction, if not, to be returned and money refunded. I will refer you to hundreds of the citizens of Milwaukee that are using the Stove.
